Senior Product Designer with 7 years of experience designing complex B2B products across sales intelligence, cybersecurity, ERP, fintech, banking, e-commerce, insurance, and AI-enabled products. Skilled at turning research, business needs, and technical requirements into intuitive experiences through UX research, accessibility, usability testing, and cross-functional collaboration. After a planned career break, seeking a senior designer role building meaningful experiences in complex AI-enabled systems.

Experience

🔴 Senior Product Designer @ ZoomInfo

2021 – Sep 2025

- Owned end to end design for complex features, from discovery through research, UX, UI, accessibility, engineering handoff, and design QA. Validated launched features through user feedback and analytics.
- Led accessibility program: standardized WCAG-aligned patterns, trained designers, embedded accessibility across the design system.
- Collaborated with Sales and Customer Success to inform project priorities and mentored junior designers on UX methodology and accessibility.

🟡 UX Designer @ UI Human Factors

2017 – 2020

Designed complex desktop and mobile systems from discovery and research to high-fidelity specs for clients across cybersecurity, ERP, fintech, banking, e-commerce, and insurance. Collaborated with PMs and engineers and conducted usability testing throughout the product lifecycle.

Education

🟡 🎓 M.Sc., Cognitive Psychology and Human Factors Engineering

2014 – 2016 · Technion, Faculty of Industrial Engineering and Management

Won IBM Cognitive Computing Faculty Award for research on emotional dynamics in customer service conversations to improve emotionally responsive chatbots.

🟡 🎓 B.A., Psychology

2010 – 2013 · University of Haifa
